Full stack developer with a background in customer service excited to help build a more open and inclusive web. Earned a certificate in full stack development from Georgia Tech and developed skills in Javascript, React, and Node.js. A dedicated problem solver focused on writing performant and clean code to bring great experiences across the web. Recently lead a team of four developing a frontend only app to help users find podcasts covering their favorite books. Looking forward to bringing my skills to a team passionate about creating exciting and user-focused experiences to the web.
